Drugs, Violence and Fairytales

There are two sides to every story. Or three. Or...
There are lots of sides to every story.
Hansel and Gretel's stepmother would agree.
As would Captain Hook.
Not to mention the so-called "Big Bad" Wolf, who
has been just howling for the opportunity to finally
make his voice heard.

YOU might be one of the lucky few to be part of the
studio audience for four exclusive TV interviews,
during which we will finally have the opportunity
to learn the truth about key events from history
that have been misrepresented by the mainstream
media for the past several centuries.

Prepare to be shocked at the juicy revelations
that will be sure to shape our perception of key
characters from fairytale lore for years to come.

Light refreshments will be served during the show,
following traditional fairytale recipes.

For those unable to wait until the 24th of May,
consider yourselves most welcome for a bonus
show – a fully immersive and theatrical interactive
game of *Werewolves*. This completely separate
show will take place on Sunday the 5th of May at 8 pm,
at the Grange de Dorigny theatre in Lausanne.
The rules will be explained as part of the show.
