

## 3<sup>rd</sup> Symposium for Emerging Viral Diseases

Campus Biotech, Geneva, Switzerland, 7-9 December

2022 <https://www.unige.ch/emerging-virus-symposium/>

### Kai Kupferschmidt :

“Three Ps in a Pandemic: On Trust and Truth”

**Main affiliation:**

Science magazine, Berlin

**Actual Position:**

Science Journaliste

Kai Kupferschmidt is a science journalist based in Berlin, Germany. He is a contributing correspondent for "Science" where he often covers infectious diseases. Kai studied molecular biomedicine at the University of Bonn, Germany and later attended the Berlin Journalism School. He has won several awards for his work, including the Journalism Prize of the German AIDS Foundation. Together with two colleagues he runs a podcast on global health called "Pandemia". Kai has written two books, one about infectious diseases and one about the science of the color blue.
