

3rd Symposium for Emerging Viral Diseases

Campus Biotech, Geneva, Switzerland, 7-9 December

2022 <https://www.unige.ch/emerging-virus-symposium/>

Gary Kobinger :

“Adapting public health to evolving science is critical to combat emerging pathogens: yet a constant source of failures”

Main affiliation:

Galveston National Laboratory
Department of Microbiology And Immunology,
John Sealy Distinguished University Chair in Tropical and
Emerging Virology,
University of Texas

Actual Position:

Director, Galveston National Laboratory
Assistant Professor, Department of Microbiology And
Immunology

Gary Kobinger, PhD, is the new Director of the Galveston National Laboratory, one of the largest active biocontainment facilities on an academic campus. Dr. Kobinger has co-authored over 300 peer-reviewed scientific manuscripts and accumulated more than 20 years of experience working in or managing high-containment laboratories. His research presently focuses on developing and testing new vaccine platforms and immune treatments against pathogens of high consequences to global public health. Serving the international community, Dr. Kobinger sits on several committees.
