

2nd Symposium for Emerging Viral Diseases

Campus Biotech, Geneva, Switzerland, 10-12 April 2019

<https://www.unige.ch/emerging-virus-symposium/>

Alexandra Calmy: HIV Control: Unresolved and Emerging Issues

Main affiliation: HUG

Actual Position: HIV/AIDS Unit (director)

Pr Alexandra Calmy is a medical doctor, trained in internal medicine and in Infectious diseases (FMH), and holds a PhD in clinical research PhD in HIV/AIDS obtained in Sydney, Australia (Prof Andrew Carr, 2005-2008). She is currently an associate Professor and head of the HIV/AIDS Unit in Geneva University Hospital. Pr Calmy's research interest is in the public health and humanitarian response to HIV/AIDS, specifically the provision of antiretroviral therapy and management of side-effects in resource limited settings. She has worked as a medical doctor with Medecins Sans Frontieres in Cambodia in 1996 and has subsequently supported MSF's HIV/AIDS work for more than 10 years. She is a member of WHO working groups on the writing and the implementation of guidelines related to the treatment of HIV in developing countries since 2001, head of CSS13 committee at the "Agence National de Recherche sur le SIDA" (ANRS), member of the scientific board of the Swiss HIV Study Cohort (SHCS), and the Federal commission of Sexual Health in Switzerland. She is also a reviewer for numerous well recognised medical journals and has published over 200 articles in peer-reviewed medical journals.
