

JULIE A. PÉRON

Department of Psychology • University of Geneva

Boulevard du Pont d'Arve 40 • 1211 Geneva 4 • Switzerland

julie.peron@unige.ch • <http://cenlab.ch/>

Born 27th march 1979

Research interest

Clinical and experimental neuropsychology - Neuropsychology of habit - Beyond the cortico-centric bias - Basal ganglia - Subthalamic nucleus - Cerebellum - Parkinson's disease - Gilles de la Tourette syndrome - Obsessive compulsive disorders - Neuro-immunology - Neuropsychological post-COVID syndrome

Education

- 2008¹** **PhD in Health Sciences, University of Rennes, France**
Thesis entitled "*Role of the subthalamic nucleus and its cortico-subcortical connections in the recognition of facial and vocal expressions of emotion*"
Direct.: Prof. Marc Vérin (Behaviour and Basal Ganglia Unit (EA 4712))
Summa cum laude, "with highest honor"
- 2004¹** **Master of Advanced Studies in Neuropsychology (DEA National de Neuropsychologie), University of Caen, France**
Research project entitled "*Role of direct personal experience in the preservation of knowledge in individuals with semantic dementia or Alzheimer's disease*"
Direct.: Prof. Pascale Piolino (INSERM) & Dr Serge Belliard (University Hospital of Rennes)
Magna cum laude, "with great honor"
- 2002** **Postgraduate Diploma in Clinical Neuropsychology (DESS), University of Caen, France**
Research project entitled "*Hemispheric specialization in the identification of famous people. Comparative study of right and left temporal cortectomies in patients suffering from pharmaceutical treatment-resistant epilepsy*"
Direct.: Dr Serge Belliard (University Hospital of Rennes)
Magna cum laude, "with great honor"
- 2001** **Bachelor's Degree in Psychology, University of Rennes, France**
Research project (3rd year) entitled "*Identification of famous people, access to semantic and morphological knowledge from names and faces*"
Direct.: Prof Alain Lieury (University of Rennes)
Cum laude, "with honor"
- 1997** **French Baccalaureate** (specialization: Philosophy and Ancient Greek)
Lycée Emile Zola, Rennes, France
Cum laude, "with honor"

¹ Academic career specification: I conducted my master and PhD research whilst working full time as a clinical neuropsychologist in the Department of Neurology of Rennes University Hospital (see below, "clinical activity" section)

Employment history

Academic appointments

Since 2021	Associate professor of clinical neuropsychology Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
Since 2021	Director of the Master of Advanced Studies in neuropsychology Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
Since 2019	Director of the Clinical and Experimental Neuropsychology Laboratory (CENLab) Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
2019-2021	Substitute senior lecturer and researcher (MER suppl.) 40% from 02/01/2019 to present Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
2017-2021	Substitute senior lecturer (chargée de cours suppl.) 20% from 01/01/2017 to present Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
2013-2018	Lecturer (maître-assistante) 40% from 01/01/2017 to 01/31/2019 - 60% from 04/01/2016 to 12/31/2016 100% from 04/01/2013 to 03/31/2016 Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
2009-2013	Postdoctoral research associate (100%) 100% from 09/01/2009 to 03/31/2013 Swiss Center for Affective Sciences (NCCR Affective Sciences) University of Geneva, Switzerland
2000-2001	Teaching assistant University of Rennes, France

Clinical positions (15 years full time equiv. since 2001)

Since 2022	Head of the Adult Clinical Neuropsychologist Unit Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
Since 2021	Clinical neuropsychologist consultant Neurology Department, University Hospitals of Geneva, Switzerland
2019-2021	Head-psychologist of the Adult Clinical Neuropsychology Unit Neurology Department, University Hospitals of Geneva, Switzerland
2016-2021	Clinical neuropsychologist 70% 01/03/2019-31/08/2021 - 40% from 04/01/2016 to 31/02/2019 Neurology Department, University Hospitals of Geneva, Switzerland
2002-2009	Clinical neuropsychologist (100%) Neurology Department, Pontchaillou University Hospital, Rennes, France

2001-2002 **Internship in clinical neuropsychology (100%)**
Brittany Regional Memory Resource and Research Centre (CMRR)
Neurology Department, Pontchaillou University Hospital, Rennes, France

Personal training

2021 **EMBO Laboratory Leadership course**
University of Geneva, Geneva, Switzerland

Career breaks

2017-2019 **Maternity leave**
An extended period of maternity leave to bring up my daughter until she is old enough to start nursery school

Since 2001 **Clinical activity**
A full-time equivalent rate of 15 years as a clinical neuropsychologist

Gross academic age (since the first publication in 2006) = 18 years

Clinical activity (since 2006) + maternity leave = 11 years

Net academic age = 7 years

Awards and honours

- 2011** **Brittany Regional Council (France): Young Investigator Award**
 Video of the ceremony with 1987 Chemistry Nobel Prize winner J.-M. Lehn:
<http://www.youtube.com/watch?v=wObKFlr71z0#t=3919>
- 2010** **French-Speaking Neuropsychological Society (SNLF): Alain Agniel Prize**
- 2009** **Society for Neuroscience (SfN): SfN Hot Topics 2009**
 Paper entitled "*Recognition of emotional prosody is disrupted after subthalamic nucleus deep brain stimulation in Parkinson's disease*" selected with 500 others, out of a total of 18,000 submissions, for inclusion in the 'SFN Hot Topics 2009' at the annual meeting of the Society for Neuroscience (Chicago, USA, October 17-21st)
- 2008** **American Academy of Neurology: Future of Neuroscience**
 Paper entitled "*Subthalamic nucleus stimulation affects orbitofrontal cortex in facial emotion recognition: A PET study*" selected for the 'Future of Neuroscience' session at the 60th Annual Meeting of the American Academy of Neurology (Chicago, USA, April 12-19th)
- 2007** **Parkinson's Disease and Movement Disorders Society: Highlighted posters**
 Paper entitled "*Recognition of negative emotions is impaired by subthalamic nucleus deep brain stimulation in Parkinson's disease*" selected for the 'Highlighted posters' session at the XIth International Congress of Parkinson's Disease and Movement Disorders (Istanbul, Turkey, June 3-7th).

To mentees

- 2024** **Finalist of my thesis in 180 seconds, University of Geneva:** A. Nuber-Champier and P. Voruz
- 2023** **Neuropsychological French-speaking Days (Journées romandes de neuropsychologie) Days: Best Poster Award** (to A. Nuber-Champier)
 Paper entitled: Nuber-Champier, A., Cionca, A., Breville, G., Voruz, P., Jacot de Alcântara, I., Allali, G., Lalive, PH, Benzakour, L., Lövblad, K.-O. Braillard, O., Nehme, M., Coen, M., Serratrice, J., Reny, J.-L, Pugin, J., Guessous, I., Landis, BN, Griffa, A., Van De Ville , D., Assal, F., & Péron, JA (2023). Acute TNFα levels predict cognitive impairment 6-9 months after COVID-19 infection. *Psychoneuroendocrinology*, 153, 106104.
- 2022** **Vasco Sanz foundation: 2023 Vasco Sanz prize** (to P. Voruz)
 Paper entitled: Voruz, P., Cionca, A. Jacot de Alcântara, I., Nuber-Champier, A., Allali, G., Benzakour, L., Thomasson, M., Lalive, P., Lövblad, KO., Braillard, O., Nehme, M., Coen, M., Serratrice, Pugin, J., Guessous, I., Landis, BN., Adler, D. Griffa, A., Van De Ville, D, Assal, F., & Péron, J.A. (2022) Functional connectivity underlying cognitive and psychiatric symptoms in post-COVID syndrome: Is anosognosia a key determinant? *Brain Communications*, 9;4(2):fcac057. doi: 10.1093/braincomms/fcac057.
- 2022** **Swiss Society of Neurology: Déjérine-Dubois prize** (to P. Voruz)
 Paper entitled: Paper entitled: Voruz, P., Cionca, A. Jacot de Alcântara, I., Nuber-Champier, A., Allali, G., Benzakour, L., Thomasson, M., Lalive, P., Lövblad, KO., Braillard, O., Nehme, M., Coen, M., Serratrice, Pugin, J., Guessous, I., Landis, BN., Adler, D. Griffa, A., Van De Ville, D, Assal, F., & Péron, J.A. (2022) Functional connectivity underlying cognitive and psychiatric symptoms in post-COVID syndrome: Is anosognosia a key determinant? *Brain Communications*, 9;4(2):fcac057. doi: 10.1093/braincomms/fcac057.

2021

French-Speaking Neuropsychological Society: Best Poster Award (to A. Nuber-Champier)

Paper entitled: Nuber-Champier, A., Voruz, P., Jacot de Alcantara, I., Breville, G., Allali, G., Lalive, P., Assal, F., **Péron, J.A.** (2022) Monocytosis in the acute phase of SARS-CoV-2 infection predicts the presence of anosognosia for cognitive deficits in the chronic phase. *Brain, Behaviour and Immunity – Health*

Conferences / colloquia

Invited conference presentations

1. Swiss Society for Microbiology annual congress 2023, Session NRP78 "COVID-19" Science, Implementation, Communication, August 30-31, Ecole Polytechnique Fédérale de Lausanne, Switzerland: "*The COVID-COG project: Science, Communication, Implementation*"
2. French speaking Neuropsychological Society (SNLF), May 2023, Caen, France: "*Emotional processing in Parkinson's disease*"
3. Signoret Seminar, French speaking Neuropsychological Society (SNLF) (Tribute to

- Béatrice Desgranges), March 21-23 2023, Caen, France: "*Emotions and Parkinson's disease*"
4. Emotions, cognition and behavior - An Itinerant Brainforum dedicated to Rita Levi-Montalcini, November 25 2022, Geneva, Switzerland: "*Long COVID: understanding the cognitive and emotional effects*"
 5. French speaking Neuropsychological Society (SNLF), May 23-24 2022, Evian-Les-Bains, France: "*Beyond the cortico-centric vision: contribution of the neuropsychology of emotion*"
 6. French speaking Neuropsychological Society (SNLF), December 3 2021, Paris, France: "*Neuropsychological post-COVID syndrome*"
 7. 5th Annual Symposium of Neurology HUG-CHU, Dec. 2020, Geneva, Switzerland: « *Neuropsychological post-COVID syndrome* »
 8. National Congress of Clinical Neuropsychology (CNNC 3), 2018, Amiens, France: "*Crossed views on French-speaking neuropsychology*"
 9. 10th International Congress of Neuropsychology of Frontal Lobes and Executive Functions, 2018, Angers, France (Professeur Allain): "*Neuropsychology of habit*"
 10. International deep brain stimulation symposium, Charité University Hospital, 2016, Berlin, Germany: chairwoman
 11. 11th International Congress on Non-Motor Dysfunctions in Parkinson's Disease and Related Disorders, 6–9 October 2016, Ljubljana, Slovenia: "*Emotional role of the subthalamic nucleus*"
 12. 29th European College of Neuropsychopharmacology, 2016, Vienna, Austria: "*Emotional role of the subthalamic nucleus*"
 13. 15th European Congress on Clinical Neurophysiology, 2015, Brno, Czech Republic: "*Emotional role of the subthalamic nucleus*" + chairwoman
 14. French speaking Psychiatry and Neurological Society (SNLF), 2015, Tours, France: "*Emotional role of the subthalamic nucleus*"
 15. Signoret annual congress, 2015, Caen, France: "*Emotional role of the subthalamic nucleus*"
 16. French speaking Neuropsychological Society (SNLF), 2010, Lille, France: "*Subthalamic nucleus stimulation affects theory of mind network: A PET study in Parkinson's disease*"
 17. French speaking Neurological Society, 2009, Lille, France: "*Subthalamic nucleus stimulation affects facial emotion recognition: A PET study in Parkinson's disease*"

Invited talks in colloquia

1. Division of General Internal Medicine, Department of Medicine, Geneva University, Switzerland, 2024
2. Rhinology-Olfactology Unit, Otorhinolaryngology Department, Geneva University Hospitals, Switzerland, 2024
3. Interfaculty Center of Gerontology (CIGEV), University of Geneva, 2023
4. Memory Center, University Hospitals of Geneva, Geneva, Switzerland, 2023
5. Leenaards Memory Center, Lausanne, Switzerland, 2022
6. Neuropsychology Unit, Hospital of Caen, France, 2019
7. Neuropsychology Unit, Hospital of Angers, France, 2019,
8. Neuropsychology Unit, Hospital of Neuchâtel, Switzerland, 2019
9. Neuropsychology Unit, Hospital of Neuchâtel, Switzerland, 2018
10. Neurology/Neuropsychology Hospital of Fribourg, Switzerland, 2018
11. Interfaculty Center of Gerontology (CIGEV), University of Geneva, 2016
12. Clinical Neuroscience Seminar, Lausanne University Hospital, Switzerland 2015
13. Swiss Doctoral School in Affective Sciences, CISA, University of Geneva, 2015
14. Geneva Motivation Lab, Faculty of Psychology, University of Geneva, 2014
15. French Academy of Sciences, Rennes, France, 2014
16. Department of Neurology, Charité University Hospital, Berlin, Germany, 2013
17. Department of Neurology, Heinrich Heine University, Düsseldorf, Germany, 2013
18. Adult Clinical Neuropsychology Unit, Geneva University Hospitals, 2013
19. Brain and Spine Institute, Paris, France, 2013
20. Department of Neurology, Geneva University Hospitals, Switzerland, 2013

Invited professional presentations declined for maternity leave

- Department of Anatomical, Histological, and Forensic Medicine, University Sapienza Roma, Italia, 2018
- 7th edition - Human Ressources Annual Forum, Scienceo, Nantes, France, 2018
- 37th European Winter Conference on Brain Research, Les Arcs 1800, France, 2017

Oral communications

Pedunculopontine Nucleus Lesions in Preoperative MRI Are Predictive for Worsening of Axial Symptoms after STN-DBS in Parkinson's Disease. *59th International congress of the American Academy of Neurology*, Boston, USA, 28 avril-5 mai (poster).

57. Gillioz, A.S., **Péron, J.A.**, Leray, E., Drapier, S., Sauleau, P., Stefani, C., Vérin, M. (2005). Comparative cognitive quality of life and motor long term follow up of subcutaneous continuous infusion of apomorphine or subthalamic nucleus deep brain stimulation in patients with advanced Parkinson's disease. *21th International Congress of Parkinson's Disease and Movement Disorders*, Kyoto, Japon, 28 oct-2 nov (poster).
58. Stéfani, CV., Drapier, S., **Péron, J.A.**, Sauleau, P., Biseul, I., Vérin, M. (2005). Continuous subcutaneous apomorphine infusion: an effective and cognitive well tolerated solution for untreatable motor fluctuations in patients with Parkinson's disease. *9th International Congress of Parkinson's disease and Movement Disorders*, New Orleans, USA, mars (poster).
59. Stefani, C., Drapier, S., **Péron, J.A.**, Sauleau, P., Biseul, I., Vérin, M. (2005). Continuous subcutaneous apomorphine infusion: an effective and cognitive well-tolerated solution for untreatable motor fluctuations in patients with Parkinson's disease. *American Academy of Neurology*, Miami, avril (poster).

Research funding (total = CHF 3'187 K)

As principal investigator or co-PI (total = CHF 2'429 K)

2023

Swiss National Science Foundation

CHF 723.9 K / PI: Prof. Péron

"*Longitudinal evolution of cognitive functions following SARS-CoV-2 infection: factors of chronocization*" (N°: 220041)

2023

Swiss National Science Foundation

CHF 538.5 K / PI: Prof. Péron

"*Influence of top-down mechanisms on cerebellar activity during vocal emotion decoding*" (N°: 105314_215015)

2023

Swiss Multiple Sclerosis Society

CHF 91 K / PI: Prof. Péron

"*Personality as a predictor of disability in multiple sclerosis*" (N°: 2023-19)

2020

Swiss National Science Foundation

CHF 561.3 K / PI: Prof. Péron & Prof. Assal

"*Short and long-term neuropsychological impairment following COVID-19*" (NRP 78, N°: 4078P0_198438)

2019

Swiss Center for Affective Sciences, UNIGE

CHF 11.3K / PI: Prof. Péron

"*Validation of a battery assessing emotional processing*"

2019

Faculty of Psychology and Educational Sciences, UNIGE

CHF 20.4K / PIs: Prof. Péron & Prof. Kliegel

"*Habits in healthy and pathological aging: a follow-up study*"

2019

Swiss National Science Foundation

CHF 538.7 K / PI: Prof. Péron

"*Cerebellar contribution to human emotion: insights from stroke and neuroimaging*"(N° 105314_182221/1)

2018

Faculty of Psychology, University of Geneva

CHF 20.4K / PIs: Prof. Péron - Prof. Desrichard - Prof. Rudrauf

"*The investigation of contextual variability of older adults' cognitive performances using virtual reality*"

2016

Swiss National Science Foundation

CHF 305.6 K / PIs: Prof. Grandjean & Prof. Péron

"*Integration of acoustic information and attentional processes in human emotional prosody decoding*"(N° 105314_140622)

2016

Faculty of Psychology, University of Geneva

CHF 20.4K / PIs: Prof. Péron – Prof. Kliegel - Prof. Ghisletta

"*Habits in healthy and pathological aging*"

2014

Butticaz Foundation

CHF 4 K / PI: Prof. Péron

"*Role of the basal ganglia in EMDR therapy efficacy*"

2012

Faculty of Psychology, University of Geneva

CHF 2.5 K / PI: Prof. Péron

For the organization of an international congress entitled "*What does human intracerebral recording tell us about emotions?*" held in Geneva on Sept. 19-21st, 2012

2012	Swiss National Science Foundation CHF 10 K / PI: Prof. Péron For the organization of an international congress entitled " <i>What does human intracerebral recording tell us about emotions?</i> " held in Geneva on Sept. 19-21 st , 2012
2012	NCCR Affective Sciences CHF 20 K / PI: Prof. Péron For the organization of an international congress entitled " <i>What does human intracerebral recording tell us about emotions?</i> " held in Geneva on Sept. 19-21 st , 2012
2009-2011	AXA Research Fund postdoctoral fellowship* € 120 K / PI: Prof. Péron <i>"Electrophysiological activity of the ventral striatum during the processing of emotional prosody in patients with chronic, treatment-resistant depression".</i> *Of note: Worldwide invitation to tender, 26 projects selected in 2009 across all disciplines
As investigator (CHF 758K)	
2012-2015	Swiss National Science Foundation (SNSF) CHF 440 K = € 356 / PI: Prof. Grandjean <i>"Functional specialization and integration of the basal ganglia in human emotional prosody decoding"</i> (No. 105314_140622)
2010-2014	Hospital-Based Clinical Research Programme (PHRC-IR) €120 K / PI: Prof. Vérin <i>"Electrophysiological activity of the subthalamic nucleus during the processing of emotional and motivational information in patients with Parkinson's disease"</i>
2010-2014	Emergent Challenges of the Department for Research and Innovation, University of Rennes € 12 K / PI: Prof. Vérin <i>"Electrophysiological activity of the subthalamic nucleus during the processing of emotional and motivational information in patients with Parkinson's disease"</i>
2007-2009	University Hospital Clinical Research Committee (COREC), University of Rennes € 28 K / PI: Prof. Vérin <i>"Effects of subthalamic nucleus deep brain stimulation on the recognition of vocally expressed emotion in Parkinson's disease"</i>
2005-2007	Hospital-Based Clinical Research Programme (PHRC-IR) €74 K. / PI: Prof. Vérin <i>"Effects of subthalamic nucleus deep brain stimulation on social cognition in Parkinson's disease"</i>

Scientific coordination of multicentre projects

Since 2014	Coordinator of the study entitled: " <i>Role of the cerebellum in emotional processing: insights from stroke patients</i> " `CEREBEMO` protocol - PI: Prof. Péron - Sponsor: University Hospitals of Geneva - Centres involved: University Hospitals of Geneva and Lausanne University Hospitals
2014-2018	Coordinator of the neuropsychological assessments of the study entitled: " <i>Deep brain stimulation in patients suffering from chronic, treatment-resistant depression</i> " ('STHYM' - National PHRC) - PI: Prof. Millet - Sponsor: Rennes University Hospital - Centres involved: Bordeaux, Clermont-Ferrand, Grenoble, Lille, Lyon, Marseille, Nancy, Nantes, Nice, Poitiers, Rennes and Toulouse university hospitals, and Paris Ste-Anne and Pitié-Salpêtrière Hospitals
2014-2018	Coordinator of the ancillary study entitled " <i>Electrophysiological activity of the ventral striatum during the processing of emotional prosody in patients with chronic, treatment-resistant depression</i> ", within the framework of the 'STHYM' protocol centres involved: Bordeaux, Clermont-Ferrand, Grenoble, Lille, Lyon, Marseille, Nancy, Nantes, Nice, Poitiers, Rennes and Toulouse university hospitals, and Paris Ste-Anne and Pitié-Salpêtrière hospitals)
2008-2012	Coordinator of the ancillary study entitled " <i>Effects of high-frequency subthalamic nucleus deep brain stimulation on the recognition of emotions communicated by the voice in patients with obsessive-compulsive disorder</i> ", within the framework of the 'STOC UNI-BIL' protocol. PI: Dr Jaafari, Department of Adult Psychiatry, Poitiers University Hospital, France. Sponsor: Poitiers University Hospital (centres involved: Clermont-Ferrand, Lyon, Marseille, Nancy, Nice, Poitiers, Rennes and Toulouse university hospitals, and Paris Ste-Anne hospital)
2008-2013	Coordinator of neuropsychological assessments under the aegis of the 'Pre-STHYM' protocol " <i>Preliminary study assessing the effectiveness of deep brain stimulation in patients suffering from chronic, treatment-resistant depression</i> ". PI: Prof. Millet (centres involved: Bordeaux, Clermont-Ferrand, Grenoble, Lille, Lyon, Marseille, Nancy, Nantes, Nice, Poitiers, Rennes and Toulouse university hospitals, and Paris Ste-Anne and Pitié-Salpêtrière hospitals)
2008- 2013	Coordinator of the ancillary study entitled " <i>Electrophysiological activity of the ventral striatum during the processing of emotional prosody in patients with chronic, treatment-resistant depression</i> ", within the framework of the 'Pre-STHYM' protocol (centres involved: Bordeaux, Clermont-Ferrand, Grenoble, Lille, Lyon, Marseille, Nancy, Nantes, Nice, Poitiers, Rennes and Toulouse university hospitals, and Paris Ste-Anne and Pitié-Salpêtrière hospitals)

Supervision

Post-doctoral supervision

- 2023** M^{me} Thomasson, Faculty of Psychology, University of Geneva, CH
2022 M. Schaeerleken, Faculty of Psychology, University of Geneva, CH
2019-2020 M^{me} Pierce, Faculty of Psychology, University of Geneva, CH

Current PhD supervision

- Since 2023** M^{me} Ioana M. Constantin, Faculty of Psychology, University of Geneva, CH
“*Neuropsychological features in asymmetric Parkinson's disease*”
Since 2023 M. Anthony Nuber-Champier, Faculty of Psychology, University of Geneva, CH
“*Immuno-cognitive relationships in the COVID-19 condition*”
Since 2021 M^{me} Jacot de Alcantara, Faculty of Psychology, University of Geneva, CH
“*Impact of personality on cognition in multiple sclerosis*”
Since 2019 M. Voruz, Faculty of Psychology, University of Geneva, CH
“*Motor symptom asymmetry and cognition in Parkinson's disease*”
Since 2017 M^{me} Murray, Faculty of Psychology, University of Geneva, CH
“*Visuo-spatial integration and vocal emotion*”

Completed PhD supervision

- 2018-2022** M^{me} Thomasson, Faculty of Psychology, University of Geneva, CH
“*Cerebellum and human emotion*”

Research assistantship – scientific supervision

- 2023-2024** M^{me} Colombel, Faculty of Psychology, University of Geneva, CH
2022-2023 M^{me} Guerin, Faculty of Psychology, University of Geneva, CH
2021-2023 M^{me} Constantin, Faculty of Psychology, University of Geneva, CH
2019-2022 M^{me} Mantelli, Faculty of Psychology, University of Geneva, CH
2020-2021 M^{me} Jacot de Alcantara, Faculty of Psychology, University of Geneva, CH

Examination

Authorization to direct research (habilitation à diriger les recherches)

- 2024** Dr M. Laisney, Habilitation à diriger les recherches, Ecole Pratique des Hautes Etudes, Section Sciences de la vie et de la Terre, GRET Neurosciences, UMR-S1077 INSEWRM-EPHE, Caen, France (referee)

PhD dissertation committees

As a referee

- 2023** M^{me} Requier, PhD in Neuropsychology, Liège University, Belgium
“*Investigating the influence of meditation on cognition in the aging population*”
2022 M^{me} Lepetit, PhD in Neuropsychology, Caen University, France
“*Analyses et bases cérébrales de la théorie de l'esprit : rôles et interactions fonctionnelles du cortex préfrontal médian*”
2022 M. Bendetowicz, PhD in Neuroscience, Sorbonne University, Paris
“*Motivation intrinsèque pour le choix dans la maladie de Parkinson*”

2021	M ^{me} Tabbal, PhD in Signal processing, University of Rennes, France in joint supervision with the Lebanese University, Lebanon <i>“Dynamique des réseaux cérébraux électrophysiologiques (dys)fonctionnels”</i>
2020	M. Perlata, PhD in Mathematics and Science and Technology of Information and Communication, Université de Rennes 1, France <i>“Data driven methods to support decision making in deep brain stimulation for Parkinson's disease”</i>
2019	M ^{me} Smith, PhD in Neuroscience, Sorbonne University, Paris <i>“Etude transnosographique de l'obsession et de la compulsion dans le trouble obsessionnel compulsif et l'addiction à la cocaïne »</i>
2018	M. Benzina, PhD in Neuroscience, Sorbonne University, Paris <i>“Apport d'une approche translationnelle dans l'étude du lien entre flexibilité cognitive et compulsion ».</i>

As an adviser

2021	M ^{me} Beser, PhD in Neuroscience, Ecole doctorale de neurosciences, UNIGE, Geneva, Switzerland
2016	M ^{me} Argaud, PhD in Psychology, FPSE, UNIGE, Geneva, Switzerland <i>“Reconnaissance des émotions exprimées sur le visage : vers une compréhension des mécanismes à travers le modèle parkinsonien ».</i>

Medicine dissertation committees (referee)

2010	Dre Gibou, Neurology, University Hospital of Rennes, France <i>“Effet de la stimulation dopaminergique continue par pompe à apomorphine sur les fluctuations motrices, cognitives et psychiques de patients parkinsoniens évolués et corrélats métaboliques cérébraux par 18 FDG-PET »</i>
2009	Dre Ory, Neurology, University Hospital of Rennes, France <i>“Effet de la stimulation chronique à haute fréquence du noyau-sous-thalamique sur l'expérience émotionnelle chez les patients atteints de la maladie de Parkinson »</i>
	Dre el Tamer, Psychiatry, University Hospital of Rennes, France <i>“Dépression et prosodie émotionnelle : abord neuropsychologique »</i>
2006	Dr Lazar, Neurology, University Hospital of Rennes, France <i>“L'IRM préopératoire est-elle prédictive du bénéfice de la stimulation sous-thalamique dans la maladie de Parkinson ? »</i>

Teaching

Teaching

Graduate courses/colloquia

denotes mandatory courses

- # Since 2021 "Research colloquium in integrative clinical psychology", Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland – approx. 50 students – oral presentations
- # Since 2021 "Neuropsychology" (3 ECTS in French), Bachelor in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland – approx. 240 students - forced-choice questions
- # Since 2021 "Habits and memory systems" (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland – approx. 80 students - forced-choice questions
- # Since 2021 "Advanced Issues in Adult Clinical Neuropsychology" (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland – approx. 25 students - forced-choice questions
- Since 2022 "Adult Neuropsychology Assessment and Intervention" (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland - approx. 25 students - open questions
- 2018-2020 "Adult Clinical Neuropsychology" (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland – approx. 80 students - forced-choice questions
- 2018-2020 "Adult Neuropsychology Assessment and Intervention" (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland - approx. 80 students - open questions
- 2016-2021 "Neuropsychology of habit" (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland - approx. 80 students – oral exam
- 2013-2016 "Behavioural Integration, Action Organisation, and Emotional Processing" (3 ECTS in French), Master in Affective Psychology and Neuroscience, Department of Psychology and Educational Sciences, University of Geneva, Switzerland - approx. 15 students – oral exam

Graduate Lectures

- 2018-2021 "Cognition: emotional processing and social cognition" (3hrs lecture in French), Master in Clinical Neuroscience, Department of Health Sciences, University of Upper Brittany, Rennes, France
- 2016-2020 "Experimental Neuropsychology: emotional processing in Parkinson's disease" (3hrs lecture in English), Master in Neuroscience, Department of Medicine, University of Geneva, Switzerland
- 2014-2016 "Emotional processing in Parkinson's disease" (2hrs lecture in French), National French Master in Neuropsychology and Neuroscience, University of Lyon 2, France

2007-2009	" <i>Neuropsychology of Human Memory</i> " (6hrs lecture in French), " <i>Neuropsychology of Instrumental Functioning</i> " (4hrs lecture in French), " <i>Neuropsychology of Executive Functions</i> "(4hrs lecture in French), " <i>Neuropsychology of Emotional Processes and Social Cognition</i> "(4hrs lecture in French), M2 in Animal and Human Behaviour, Department of Life and Environmental Science, University of Rennes I, France
2006-2009	" <i>Clinical Neuropsychology, a Cognitive Approach</i> " (4hrs lecture in French), " <i>Deep Brain Stimulation in Neuropsychiatric Pathologies</i> " (4hrs lecture in French) M1 in Animal and Human Behaviour, University of Rennes I, France
2004-2005	" <i>The Neuroanatomy of Language</i> " (4 hrs lecture in French), M2 in Cognitive Psychology, Department of Cognitive Psychology, University of Rennes, France

Postgraduate and continuing education lectures

2023	Lecture entitled " <i>Neuropsychology of Multiple Sclerosis</i> ", Nurse Experts Meeting Romandie, Biogen Switzerland AG.
2021	Lecture entitled " <i>Neuropsychological post-COVID syndrome</i> ", Annual Continuing Education Conference of the Quebec Association of Neuropsychologists
2016	Lecture entitled " <i>Toward an integrative approach in clinical neuropsychology of emotion</i> ", Annual Continuing Education Conference of the Swiss Association of Neuropsychologists
2005-2006	Lecture entitled " <i>Neuropsychological Assessment of Dementias</i> " (6hrs lecture in French), Postgraduate specialization and diploma in geriatrics, Faculty of Medicine, University of Rennes I, France

Dynamic teaching and educational material

Since 2016	Simulated patient educational material for psychology and medical students and the scientific community: post-COVID syndrome simulation
Since 2016	Simulated patient interaction and clinical practice workshop in the context of the course entitled: " <i>Adult Neuropsychology Assessment and Intervention</i> " (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland <i>During this course, the student is invited to carry out a neuropsychological assessment from the analysis of the request to the restitution to the patient and the family, including the psychometric evaluation and the anamnesis. To do so, he/she must deal with a credible file and be trained in exchanges in a realistic but controlled situation.</i>
2016	Participation of the Massive Open Online Course (MOOC) in Neuroscience entitled: " <i>Audition, language, music</i> "
2003	Participation in the development of a DVD, in partnership with Lundbeck, on a neuropsychological tool for assessing patients in the advanced stages of Alzheimer's disease and associated disorders (Severe Impairment Battery, SIB) aimed at geriatricians and neurologists.

Supervision (see also “research and clinical activity”)

Master of Advanced studies in neuropsychology - supervision of the thesis

- 2024** M^{me} Meziane, Faculty of Psychology, University of Geneva, CH (current)
- 2023** M^{me} Pittet, Faculty of Psychology, University of Geneva, CH (completed)
« Discrépance entre données radiologiques et tableau clinique chez un patient atteint de sclérose en plaques »
- 2022** M^{me} Totaro, Faculty of Psychology, University of Geneva, CH (completed)
« Présentation d'une rééducation du traitement numérique et de la mémoire de travail verbale après un traumatisme crânio-cérébral sévère et discussion sur les défis du retour au travail »

Master in Psychology - supervision of the thesis (current)

- Since 2024** M^{me} Nguyen, Faculty of Psychology, University of Geneva, CH
M^{me} Hazeraj, Faculty of Psychology, University of Geneva, CH
M^{me} Eggs, Faculty of Psychology, University of Geneva, CH
M^{me} Colin, Faculty of Psychology, University of Geneva, CH
M^{me} Delobel, Faculty of Psychology, University of Geneva, CH
M^{me} Bouvier, Faculty of Psychology, University of Geneva, CH
M^{me} Amor, Faculty of Psychology, University of Geneva, CH
- Since 2022** M^{me} Colombel, Faculty of Psychology, University of Geneva, CH
M^{me} Uldry, Faculty of Psychology, University of Geneva, CH
M^{me} Pitteloup, Faculty of Psychology, University of Geneva, CH
M^{me} Cupertino, Faculty of Psychology, University of Geneva, CH
M. Baldoni, Faculty of Psychology, University of Geneva, CH
M^{me} Berset, Faculty of Psychology, University of Geneva, CH
- Since 2021** M^{me} Ibo, Faculty of Psychology, University of Geneva, CH

Master in Psychology - supervision of the thesis (completed)

- 2021-2024** M^{me} Kuhn, Faculty of Psychology, University of Geneva, CH
"Utilité de l'application sur tablette « Adaptive Cognitive Evaluation (ACE) Explorer » pour le dépistage du déclin cognitif chez des patient-e-s consultant les Centres mémoire »
M^{me} Hossain, Faculty of Psychology, University of Geneva, CH
"Reconnaissance d'émotions musicales dans la dégénérescence lobaire fronto-temporale et la maladie d'Alzheimer : intérêt pour le diagnostic différentiel précoce ? »
M^{me} Schenkel, Faculty of Psychology, University of Geneva, CH
"L'effet d'une intervention à base d'une tâche visuospatiale de type Tetris® visant la réduction de souvenirs intrusifs dans une population de réfugiés »
- 2021-2023** M. Liardet, Faculty of Psychology, University of Geneva, CH
"L'anosognosie de la maladie chez des patients post-AVC hémisphérique droit, analyse du lien avec les capacités de flexibilité affective"
M^{me} di Fiore, Faculty of Psychology, University of Geneva, CH
"L'anosognosie pour la maladie chez des patients post-AVC hémisphérique droit : inconscience explicite, implicite ou les deux ?"

Research internship – scientific supervision

- 2022-2023** M^{me} Sautebin, Faculty of Psychology, University of Geneva, CH
2022-2023 M^{me} Guérin, Faculty of Psychology, University of Geneva, CH
2019-2020 M^{me} Paraskevi Antoniou, Faculty of Psychology, University of Geneva, CH
M^{me} Fragnoli, Faculty of Psychology, University of Geneva, CH
2018-2019 M^{me} Selosse, Faculty of Psychology, University of Geneva, CH
M. Voruz, Faculty of Psychology, University of Geneva, CH
2016-2017 M^{me} Stirnimann, Faculty of Psychology, University of Geneva, CH

Examination

Master of Advanced studies in clinical neuropsychology

2023	Mme Borgognon, MAS in neuropsychology, FPSE, UNIGE <i>"Évolution d'un syndrome thalamique chez un patient avec lésions d'AVC ischémiques thalamique gauche, pontique et cérébelleuses bilatérales"</i>
Since 2022	Annual clinical cases examinations, Faculty of Psychology, UNIGE

Master level in Psychology

2023	Mme Dayen, Master in Psycholoy, FPSE, UNIGE <i>"Aborder la sexualité dans la pratique clinique en cabinet : Une étude qualitative sur les obstacles perçus par les médecins gynécologues en Suisse romande"</i> Mme Seiler, Master in Psycholoy, FPSE, UNIGE <i>"Abord de la sexualité en cabinet : quels rôles jouent les gynécologues ?"</i> Mme Duay, Master in Psycholoy, FPSE, UNIGE <i>"TOP et inhibition, le rôle potentiellement modérateur de la reconnaissance de la colère et de l'irritation"</i> Mme Luchino, Master in Psycholoy, FPSE, UNIGE <i>"Le rôle de la dysrégulation émotionnelle dans l'expression des traits narcissiques chez les adultes avec un TDAH"</i> Mme Boislard, Master in Psycholoy, FPSE, UNIGE <i>"Le rôle des stratégies de régulation cognitivo-émotionnelle maladaptatives dans la relation entre l'impulsivité et l'anxiété à l'adolescence"</i>
2022	M ^{me} Baertschi, Master in Psycholoy, FPSE, UNIGE <i>« CALADESI PROJECT : Perception du degré de confort et d'inconfort par des parents, non-parents et professionnels sur une population de nouveau-nés à terme et nés prématurément ».</i> M. Ruinato, Master in Psycholoy, FPSE, UNIGE <i>"Différences individuelles dans l'apprentissage émotionnel pavlovien-instrumental et les liens avec les comportements compulsifs de recherche de récompense"</i> M. Petignat, Master in Psycholoy, FPSE, UNIGE <i>"Individual differences in emotional learning and compulsive reward-seeking behavior"</i> M ^{me} Denis-Bonnin, Master in Psycholoy, FPSE, UNIGE <i>"Validation française de la Creature of Habit Scale (COHS) : Exploration des liens entre habitudes, compulsivité, impulsivité et comportements problématiques de recherche de récompense"</i> M ^{me} Corino, Master in Psycholoy, FPSE, UNIGE <i>"Habitudes, stress et anxiété dans les comportements problématiques de recherche de récompense : Validation française de la COHS (Creature of Habit Scale)"</i>
2021	M ^{me} Vetterli, Master in Psycholoy, FPSE, UNIGE <i>"La reconnaissance des signaux de confort et d'inconfort de nouveau-nés prématurés et à terme par des parents et non-parents"</i>

2019	M ^{me} Cavadini, Master in Psycholoy, FPSE, UNIGE <i>"Exploration du processus d'évaluation cognitive des événements de vie, des compétences émotionnelles et de la santé mentale d'hommes tout-venant : une contribution à l'établissement de normes longitudinales destinées au suivi de sujets blessés médullaires"</i> M ^{me} Cavboeri, Master in Psycholoy, FPSE, UNIGE <i>"L'influence des émotions positives dans les crimes de haine : le cas de la fierté hubris et authentique"</i> M ^{me} Lombard, Master in Psycholoy, FPSE, UNIGE <i>"L'influence de la labellisation biologique sur le plaisir lors de la consommation et le prix selon les valeurs biosphériques"</i> M ^{me} Antonio, Master in Psycholoy, FPSE, UNIGE <i>"L'influence du sentiment d'auto-efficacité sur la relation entre les performances cognitives et la perception du désagrément"</i>
2018	M ^{me} Grillet, Master in Psycholoy, FPSE, UNIGE <i>"Influences du liking et du wanting sur l'augmentation de la consommation alimentaire durant un affect positif"</i>
2017	M ^{me} Chaupond, Master in Psycholoy, FPSE, UNIGE <i>"L'effet blouse blanche : son rôle dans les facteurs non cognitifs du déclin mnésique chez les personnes âgées"</i> M ^{me} Vuignier, Master in Psycholoy, FPSE, UNIGE <i>"Contrôle de soi : influence de la perception des ressources cognitives disponibles dans un paradigme de tâches séquentielles"</i>
2016	M ^{me} Boeri, Master in Psycholoy, FPSE, UNIGE <i>"Évaluation d'une nouvelle méthode d'évaluation ambulatoire du stress et des stratégies de gestion du stress via smartphone (smart-cope)"</i>
2015	M ^{me} Jeanmonod, Master in Psycholoy, FPSE, UNIGE <i>"Feedback, valeurs et cadrages : déterminants multiples de la consommation énergétique individuelle dans une tâche expérimentale de décision"</i> M ^{me} Chaabi, Master in Psycholoy, FPSE, UNIGE <i>"Effets des émotions sur la navigation spatiale dans des environnements virtuels"</i> M ^{me} Domingos Felicio, Master in Psycholoy, FPSE, UNIGE <i>"Développement et validation du Questionnaire d'Auto-Evaluation de l'Addiction Sexuelle"</i>
2014	M ^{me} Malagurski, Master in Neuropsycholoy, Lyons, Toulouse and Grenoble Universities, France <i>"The functional role of the subthalamic nucleus in reinforcement-based decision making in Parkinson's disease"</i>

Master level in Neuroscience

2021	Mme Duong Phan Thanh, Master in Neuroscience, Faculty of Science, UNIGE <i>"Anosognosia for the neurological illness: explicit and implicit knowledge of the disease"</i>
2020	Mme Almato Bellavista, Master in Neuroscience, Faculty of Science, UNIGE <i>"Anosognosia for unilateral spatial neglect: explicit and implicit knowledge of neglected errors"</i>

M. Guyone-Hencke, Master in Neuroscience, Faculty of Science,
UNIGE

*"Peer's influence on the inhibition of an addictive behaviour and role of
the subthalamic nucleus"*

Research internship - scientific examination

2023	M ^{me} Seiler, Neurorehabilitation Dpt, CHUV, Lausanne, CH
2022	M ^{me} Radonjic, Leenaards Center for Memory, CHUV, Lausanne, CH
	M ^{me} Colombel, Neurorehabilitation Dpt, CHUV, Lausanne, CH

Clinical activity (see also supervision)

Licences to practice clinical psychology and other clinical qualifications

2016	Accreditation from the Swiss Association of Neuropsychologists Titre de spécialiste en neuropsychologie FSP
2015	Accreditation from the Federation of Swiss Psychologists Titre de psychologue FSP
2015	Training in eye movement desensitization and reprocessing (EMDR) therapy (Level 1) Swiss Institute of Psychotraumatology (IRPT), Lausanne, Switzerland
2014	Licence to practice in Geneva Droits de pratiques à titre indépendant, Canton de Genève
2002	Licence to practice in Europe ADELI registration no.: 359303815
2001-2004	Training in Ericksonian hypnosis “Emergences” association, Rennes, France

Neuropsychologist or investigator for institutionally funded clinical trials

2014-Present	Neuropsychologist and principal investigator - ‘CEREBEMO’ protocol “Role of the cerebellum in emotional processing: insights from stroke patients” Department of Neurology, Geneva University Hospitals and Lausanne University Hospital
2013-2019	Neuropsychologist and investigator - ‘EMOPHYSIO 2’ protocol “Electrophysiological activity of the subthalamic nucleus in response to emotional prosody in patients suffering from Parkinson’s disease and obsessive-compulsive disorders” - Department of Neurology, Geneva University Hospitals (Collab. Prof. Pollak)
2010-2015	Neuropsychologist - ‘STOC2’ protocol (National programme for funding innovative techniques, PSTIC). “Treatment of severe, treatment-resistant OCD by high-frequency stimulation of the ventral striatum and subthalamic nucleus. Randomized single-blind clinical trial with medical and economic assessment” Sponsor: Bordeaux University Hospital
2009-2015	Neuropsychologist and investigator - ‘Stroke and Emotions’ protocol (National hospital-based clinical research programme, PHRC): “Emotional processes and basal ganglia: Neuropsychological and neurophysiological study of modifications in emotional experience in patients in the chronic phase of ischaemic stroke. A pilot study”. PIs: Prof. Timsit, Department of Neurology, Brest University Hospital & Prof. Vérin,
2009-2012	Neuropsychologist - ‘STOC UNI-BIL’ protocol (National PHRC): “Non-inferiority study of the effect of treating severe and treatment-resistant forms of obsessive-compulsive disorder by high-frequency right or left unilateral versus bilateral stimulation of the subthalamic nucleus”. PI: Dr Jaafari, University Hospital Centre, Poitiers, France
2009-2014	Neuropsychologist and investigator - ‘EMODES’ protocol (funding from the Brittany Regional Centre for Innovation and Technology Transfer, CRITT): “fMRI investigation of emotional prosody and decision-making in

depressive patients likely to attempt suicide". PI: Dr Travers, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Adult Psychiatry, Rennes University Hospital, France

- 2008-2013** **Neuropsychologist - 'Pré-STHYM' protocol (private-sector funding from Medtronic):** "*Preliminary study assessing the effectiveness of deep brain stimulation in patients suffering from chronic, treatment-resistant depression". PI: Prof. Millet, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Adult Psychiatry, Rennes University Hospital, France*
- 2008-2013** **Neuropsychologist - Ancillary study to 'Pre-STHYM' protocol:** "*Effect of the chronic stimulation of the ventral striatum in depression on sexual and eating behaviour". PI: Dr Drapier, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Neurology, Rennes University Hospital, France*
- 2008-2013** **Neuropsychologist and investigator - Ancillary study to 'Pre-STHYM' protocol:** "*¹⁸FDG-PET study of modifications in brain glucose metabolism in patients suffering from chronic, treatment-resistant depression receiving stimulation of the ventral striatum". PI: Dr Le Jeune, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Nuclear Medicine, CRLCC Eugène Marquis, Rennes, France*
- 2008-2011** **Neuropsychologist and investigator - 'APOTEP' protocol (private-sector funding from the Aguettant and Orkyn laboratories):** "*Effect of continuous dopaminergic stimulation via apomorphine pump on motor, cognitive and mental fluctuations in advanced Parkinson's patients and ¹⁸FDG-PET cerebral metabolic correlates". PI: Prof. Vérin, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Neurology, Rennes University Hospital, France*
- 2006-2008** **Neuropsychologist - 'STOC' protocol (National PHRC):** "*Treatment of severe obsessive-compulsive disorder by continuous bilateral subthalamic nucleus high-frequency deep brain stimulation". PI: Dr Mallet. Sponsor: Paris Public Hospital Authority, Regional Clinical Research Division*
- 2005-2007** **Neuropsychologist - 'STIMPARK II' protocol (Rennes University Hospital Clinical Research Committee, COREC):** "*Analysis of selective attention mechanisms at different stages in the processing of emotional information in stimulated Parkinsonian patients". PI: Prof. Vérin, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Neurology, Rennes University Hospital, France*

Consultant or investigator for privately-funded clinical trials

- 2022-2024** Investigator - GeNeuro SA – Phase II trial, Temelimab as a Disease Modifying Therapy in Patients With Neuropsychiatric Symptoms in Post-COVID 19 or PASC Syndrome
- 2010-2011** Neuropsychologist – Boston Scientific – Neuromodulation Division - VANTAGE STUDY Vercise™ implantable stimulator for treating Parkinson's disease
- 2010-2011** Neuropsychologist – Pierre Fabre Laboratories – Phase-II study assessing the effect of 6 months' treatment with DC158AM on the fatigue of patients with Parkinson's disease

2010-2011	Neuropsychologist – Lundbeck – Phase III of the 11018 study assessing the effectiveness and tolerance of Memantine® in patients with Parkinson's disease and Lewy body dementia
2003-2004	Neuropsychologist – Pharmacyclics – Phase II of the PCYC-0211 study assessing the effectiveness of injections of Xcytrin® (otexafin gadolinium) in the treatment of brain metastases in patients with cancer
2003-2004	Consultant – Sanofi Synthélabo – Phase II of the EFC 5286 study assessing the effectiveness and tolerance of SR57667B in patients in the mild to moderate stages of Alzheimer's disease
2003-2004	Neuropsychologist – Servier Laboratories – CORX-CX516-012 study assessing the effectiveness and tolerance of CX516 in patients with mild cognitive impairment (MCI)
2003-2004	Neuropsychologist – Lundbeck – Phase III of the 99679 study assessing the effectiveness and tolerance of Memantine® in patients in the mild to moderate stages of Alzheimer's disease

Internship in neuropsychology – clinical activity supervision

2017-2021	M ^{me} Thomasson, University Hospitals of Geneva, CH M. Voruz, University Hospitals of Geneva, CH
2021	M ^{me} Marti, University Hospitals of Geneva, CH
2021	M ^{me} Constantin, University Hospitals of Geneva, CH
2020	M ^{me} Jacot de Alcantara, University Hospitals of Geneva, CH
2016-2017	M ^{me} Bapst, University Hospitals of Geneva, CH M ^{me} Müller, University Hospitals of Geneva, CH
2015-2016	M ^{me} Collignon, University Hospitals of Geneva, CH M. Genoud-Prachex, University Hospitals of Geneva, CH
2009-2010	M ^{me} Guillemot, University Hospital of Rennes, France
2008-2009	M. Christen, FPSE, University Hospital of Rennes, France

Management / administration

Direction

- Since 2021 Director of the Master of Advanced Studies in Neuropsychology, Faculty of Psychology, University of Geneva, Switzerland**
- HR and budget management
 - Guidelines and regulatory aspects
 - Opposition procedures
 - Communication / Information / Networking
 - Accreditation procedure (with The Federal Department of Home Affairs)
 - Teaching and evaluation
 - Administrative aspects
 - Information to students and institutions
- Since 2019 Creation and director of the Clinical and Experimental Neuropsychology Laboratory, University of Geneva, Switzerland**
- 4 post-doctoral students (Dre Pierce, Dr Benis, Dr Schaeleken, Dre Thomasson)
 - 5 doctoral students (Mme Jacot de Alcantara, Mme Thomasson, M. Voruz, M. Nuber-Champier, Mme Constantin, Mme Murray)
 - 6 research assistants (Mme Constantin, Mme Mantelli, Mr Nuber-Champier)
 - 2 Auxiliary research assistants (Mme Selosse, M. Voruz, Mme Colombel, Mme Sautebin, Mme Guérin)
 - Administrative and technical personal (1 EPFL engineer : M. Cionca (21-23), 1 secretary : Mme Bigler, 2 scientific adjuncts : Dre Esposito, Dre Zahnd)
 - 1 teaching assistant dedicated to other lecturers in neuropsychology but under my hierarchical responsibility (Mme Hussman)
 - 2 lecturers in neuropsychology under my hierarchical responsibility (Dre Esposito, Dre Brioschi).
- 2019-2021 Head-psychologist of the Adult Clinical Neuropsychology Unit, Department of Neurology, University Hospitals of Geneva, Switzerland**
- HR and budget management
 - Clinical guidelines and protocol recommendations
 - Analysis and prioritization of neuropsychological examination requests
 - Emergency management and role reassignment
 - Supervision and validation of examination reports conducted by non-federal credential holders
 - Supervision of forensic expertise
 - Animation and participation in bi-weekly clinical and scientific conferences
 - Administrative aspects and schedule management
 - Continuing education and information for medical and non-medical staff
 - Information exchange and networking with unit managers, supervisors, and relevant medical teams
 - Supervision of clinical interns (see below “Internship in clinical neuropsychology supervision” section)

Participation in management bodies and appointment to professorship committee

- 2023** Member of the Committee for the appointment of a professor of clinical neuropsychology, Faculty of Psychology, University of Liège, Belgium
- 2023** Member of the Committee for the appointment of a senior lecturer in cognitive psychology, Faculty of Psychology, University of Geneva, Switzerland
- 2022** Member of the Committee for the appointment of a professor in psychiatry, Faculty of Medicine, University of Geneva, Switzerland (appointment by calling of Prof. Marie Schaer)
- Since 2021** Member of the COMEVAL Committee, Faculty of Psychology, University of Geneva, Switzerland
- Since 2021** Member of the Faculty Program Committee (“Cognitive psychology sub-section”), Faculty of Psychology, University of Geneva, Switzerland
- Since 2021** Member of the Faculty Program Committee (“Clinical psychology sub-section”), Faculty of Psychology, University of Geneva, Switzerland
- 2013-2021** Member of the Faculty Program Committee (“Affective psychology sub-section”), Faculty of Psychology, University of Geneva, Switzerland

Service to the discipline

Participation in consortium and scientific committees, translation of research results into clinical guidelines

2024	Member of the Scientific Committee of the 2024 Neuropsychological French-speaking Days (Journées romandes de neuropsychologie), Geneva, Suisse
2024	Co-organizer of the World Head Injury Awareness Day 2024, Geneva, Suisse
2023	Publication of the Swiss Federal Office of Public Health recommendations regarding the diagnostic and treatment of the post-COVID-19 condition for primary care physicians
2022-2023	Member of the Federal Consortium mandated by Federal Office of Public Health for the development of FMH Post-COVID-19 condition guidelines, CH
Since 2020	Information to health care professionals about the results of research on post-COVID syndrome to guide clinical assessments and rehabilitation
2018-2023	Member of the Scientific Committee (Humanities and Social Sciences Division), France Parkinson non-Profit Organization
2020	Member of the scientific council for the High Council for Evaluation of Research and Higher Education (Hcéres), France
2015-2019	Organization of the Annual Continuing Education Conference of the Swiss Association of Neuropsychologists (about 80-100 participants each year) <ul style="list-style-type: none"> ▪ 2019 topic: « <i>Neuropsychology and neuro-immunology</i> » ▪ 2018 topic: « <i>Memory systems throughout the lifespan</i> » ▪ 2017 topic: « <i>Contribution and limits of neuroimaging in clinical neuropsychology: from diagnosis to rehabilitation</i> » ▪ 2016 topic: « <i>Clinical neuropsychology of emotion</i> »
2015-2019	Member of the Continuing Education Committee, Swiss Association of Neuropsychologists (ASNP)
2016-2017	Member of the Board, Swiss Association of Neuropsychologists (ASNP)
2013	Member of the scientific committee, European Clinical Neurophysiology Society
2012	Member of the Section of Neuropsychology of the French group of Neuromodulation by implanted material (“Club français de Neuromodulation par Matériel Implante”)
2012	Member of the scientific and organizing Committee of the “ <i>15th European Congress on Clinical Neurophysiology</i> ”, Brno, Czech Republic
2012	Organization - together with Profs. Grandjean and Vuilleumier, and Dr Saj - of the international congress “ <i>What does human intracerebral recording tell us about emotions?</i> ” held in Geneva on Sept. 19-21 st , 2012.
2002-2009	Participation in the creation of the Network of Clinical Neuropsychologists of Brittany, France
2002-2006	Vice President of the <i>Association of Neuropsychology Students</i> of Caen, Fr

Editing and reviewing

Editor

Since 2024 Invited editor *Frontiers in Psychiatry*

Since 2023 Associate editor *Cortex*

Since 2020 Associate editor *Revue de Neuropsychologie*

2014 Guest Editor of a special issue published in *Cortex* entitled "*What does human intracerebral recording tell us about emotions?*"

Ad hoc journal reviewer (selection)

Publons profile at: <https://publons.com/author/1512009/julie-peron#profile>

- About 30 journals (select. Brain - Brain and Cognition - Brain Topography - Clinical Physiology and Functional Imaging - Computer in Biology and Medicine - Emotion Review European Journal of Neurology - Frontiers in Human Neuroscience - Movement Disorders - Neuropsychologia - Neuropsychology - Parkinsonism and Related Disorders - Social and Affective Neuroscience - Social Neuroscience)
- About 50 articles reviewed since 2006 (3 to 4 each year in average)

Grant reviewer (alphabet. order)

- France Alzheimer non-profit organization
- Aquitaine Region Council (France)
- Auckland Medical Research Foundation Project Grant (New Zealand)
- Belgian National Agency for Research
- France Parkinson non-profit organization
- French National Agency for Research
- Neurological Foundation of New Zealand
- Parkinson's UK non-profit organization
- Translational and Clinical Research Committee of the University Hospital of Rennes (France)

Other: Abstract Conference reviewer

- InterSpeech
- International Society for Research on Emotion (ISRE)

Education and communication for the lay community

2024	Lay audience talk. “Affective neuropsychology and TBI: development of the Geneva Affective Battery”, World Head Injury Awareness Day 2024, Geneva, Suisse
2022	Lay audience talk. “Neuropsychological disorders in multiple sclerosis”, Multiple Sclerosis Swiss non-profit organization
2022	Webinaire participation. “Neuropsychological disorders following SARS-CoV-2 infection”, HUG
2022	Newspaper article. “Wenn Kranksein gar nicht bemerkt wird”
2022	Newspaper article. La Newsletter : “La SEP au quotidien, tabous et conséquences psychologiques”
2021	Radio programme. Radio Télévision Suisse Italienne: long-COVID
2020	Newspaper article. La Tribune de Genève : “Les malades légers souffrent aussi de troubles neurologiques”- https://www.tdg.ch/les-malades-legers-souffrent-aussi-de-troubles-neurologiques-429419345481
2020	Newspaper article. 24 Heures : “Les malades légers souffrent aussi de troubles neurologiques” - https://www.24heures.ch/les-malades-legers-souffrent-aussi-de-troubles-neurologiques-429419345481
2020	Television programme. Journal Léman Bleu : “Le-covid-19-pourrait-avoir-des-effets-sur-le-cerveau” - http://www.lemanbleu.ch/fr/News/Le-covid-19-pourrait-avoir-des-effets-sur-le-cerveau.html
2019	Lay audience conference - Women’s Added Value in the Economy 10 th annual conference: <i>“Impactful leadership: developing emotional intelligence for success”</i> , Graduate Institute, Geneva
2018	Newspaper interview entitled <i>“Décoder l’activité cérébrale, futur remède contre la dépression ?”</i> [Decode brain activity, future cure for depression?], published by <i>Libération</i> , September 18 th , 2018. https://www.liberation.fr/sciences/2018/09/19/decoder-l-activite-cerebrale-futur-remede-contre-la-depression_1679798
2015	Organization of an interactive workshop for open days of the Faculty of Psychology and Educational Sciences (University of Geneva)
2014	Newspaper article entitled “L’Académie des Sciences en Bretagne”, published by Magazine ArMen, La Bretagne Eclairée, N°201, p. 68
2014	Communication article entitled “En bref ... Sciences Affectives. Numéro Spécial du journal Cortex édité par Julie Péron & Didier Grandjean” published by the <i>Journal de l’Unige</i> (University of Geneva)
2012	Newspaper interview entitled “Vous cherchez? Les bases cérébrales des émotions” [Looking for the cerebral bases of the emotions], published by <i>La Tribune de Genève</i> , March 3 rd , 2012. http://journal.tdg.ch/bases-cerebrales-emoitions-2012-02-27
2012	Television programme. Info TSR - TSR Découverte entitled “Pourquoi rit-on?”[Why do we laugh?] aired on Télévision Suisse Romande, February 20 th , 2012. http://www.rts.ch/video/info/journal-12h45/3797714-tsr-decouverte-pourquoi-rit-on.html
2011	Television programme. Special edition of 36.9° entitled “Parkinson: Lenteurs et tremblements” [Parkinson’s: Slowness and shaking], aired on Télévision

- Suisse Romande (TSR1), March 30th, 2011. <http://www.tsr.ch/emissions/36-9/3049550-parkinson-lenteurs-et-tremblements.html>
- 2010** *Press release* entitled "Parkinson's disease makes it harder to figure out how other people feel" published by the **American Psychological Association (APA)**, March 3rd, 2010.
- 2010** *Newspaper article* entitled "Parkinson's disease makes it harder to figure out how other people feel" published by **The New York Times**, March 3rd, 2010.
- 2010** *Newspaper article* entitled "Parkinson's patients unable to recognize emotions" published by **The Times of India**, March 4th, 2010.
- 2010** *Online articles* regarding the paper "Péron, J., Biseul, I., Leray, E., Vicente, S., Le Jeune, F., Drapier, S., Drapier, D., Sauleau, P., Haegelen, C., & Vérin, M. (2010). Subthalamic nucleus stimulation affects fear and sadness recognition in Parkinson's disease. *Neuropsychology*, 24(1), 1-8", published by **Science Daily.com; Medical News Today.com; Elements4health.com; Lab Spaces.net; E-Psychology.us; Expert-reviews.com; NewsRx.com; The Mental Health Social Worker.org**
- 2010** *Communication article* entitled "Understanding the link between the brain and electrodes in the perception of emotions - Le cerveau, l'électrode et la perception des émotions", published by **ECHO**, the AXA research fund magazine, November 10th, 2010, p. 14-17.
- 2010** *Newspaper article* entitled "Le cerveau écoute les émotions négatives" [Our brain listens to negative emotions], published by **Science & Vie**, May 2010, page 17.
- 2010** *Communication article* entitled "Un cerveau à l'écoute des émotions - Une équipe franco-genevoise lève une barrière dans le domaine de la stimulation cérébrale profonde des patients atteints de la maladie de Parkinson" [A brain that listens to emotions – A Franco-Genevan team removes a barrier in the deep brain stimulation of patients with Parkinson's disease], published by the **Journal de l'Unige** (University of Geneva), March 2010, no. 31, page 14.
- 2010** *Lay audience lecture*. Invited lecture at the **Night of Science** (July 10-11, 2010), Geneva, Switzerland. Lecture entitled "Le cerveau stimulé. Que peut nous apprendre la stimulation cérébrale profonde sur les émotions humaines ?" [The stimulated brain. What can deep brain stimulation tell us about human emotions?].
