	Guérin	30	Geslain/Sobiech
	Valentini	30	Loisin/Chen
	Garcin	15	Klages/Marq
12:15	Sandwich Lunch/Departure		

Scientific format

Each group has an allocated time slot of 30 min.

Within this slot:

- 2-3 min introduction of the group by two junior chairs of the department including a short graphical “cv” of the PI
- a maximum 10 min presentation by the PI with a general overview of the group (including a picture), scientific questions the group is interested in, their general vision of their field in the coming years, plus a selection of techniques or resources, which could be useful to other groups in the department. The goal is to create some synergistic potential in the department.
- Remaining time of the slot can be filled as perceived best (PI talk, student's or postdoc's presentations).
